Subject: Barbara Ransom v.mail -- preliminary JD request for Redwood Salt Works

Hi Shin-Roei,

Barbara did call us both on 11/12 about the jurisdictional determination request she sent to the Corps. Sorry I forgot the specifics until I saw my phone notes. She said the following (paraphrased):

Cargill was filing a preliminary jurisdictional determination request with the Corps which would allow it to presume CWA jurisdictional over the property. It is repealable and can be retracted. They want to put the historic jurisdictional battles behind them so that the agencies won't have to focus on jurisdictional issues but can look, instead, at the benefits, such as stormwater mgt., and other issues.

I'll ask her for a copy of that and the other document we discussed today.

Thanks,
Andree
